Part 1 – Approval Pages

Commitment Statement:

This serves to certify that all items listed in this Aircraft Maintenance Organisation Capability List AMO No 1538 are within the approved scope of the maintenance organisation certificate and Operation Specification as approved and issued by the Director. Turbine Standard has the appropriate premises, facility, tools, equipment, material, airworthiness documentation and personnel to perform the work on the aircraft or aircraft components as listed in the capability list and meets the requirements of SACAR 145.

AMO 1538

1.4 Purpose and authority of this manual

1.4.1 General

This Capability List is published in accordance with the requirements published in the Civil Aviation Regulation, as amended and SA-CATS 145 issued by the South African Civil Aviation Authority.

1.4.2 Purpose

All personnel in the company will be conversant with the contents of this list to perform safely and efficiently within the confines of the legislation and procedures described in the manual.

The license holder will also ensure that in exercising the privilege/s of Aircraft Maintenance Organization License Number 1538 the provisions of the Civil Aviation Regulations, as amended are complied with at all times and that, in addition, these privileges are not exercised unless all apparatus necessary for satisfactorily completing of any maintenance on the aircraft, its engine(s), rotor(s), component(s), instruments and equipment are readily available to the person(s) carrying out the maintenance, and those required to supervise, inspect and certify such maintenance.

1.4.3 Authority

Acknowledgment is given to other Authorities that might be engaged in the normal activities of the company. The legislation published by the South African Civil Aviation Authority will be considered as binding and dictating in the operations of the company.

1.4.4 Amendment

No addition shall be made to this list without the written approval of the Director for Civil Aviation. When approved, such amendments shall be incorporated immediately and shall be made as prescribed in CAR 145.02.7a. Any changes made to this list within the approved scope of work shall be communicated to the Director.

1.5 Distribution List

The latest approved version of this Capability List will be stored on the official company server as a read only document, where all personnel will always have easy access to it. Only electronic copies will be maintained.

1.6 FAA approval

This company also maintains an FAA-approved capability list, which remains unaffected by this document. Rather, this list serves to complement and support the SACAA approval.
