

Job Title	Quality Auditor	Job Type	Full-Time
Job ID	1005	Job Post Date	05/20/2025
Location	Holland, Ohio	Start Date	ASAP

Job Description:

As Quality Auditor you will be assisting the Chief Inspector and Quality Manager in designing, implementing, and maintaining safety and quality standards that meet AS9110 and FAA/EASA Safety Management System requirements. This role will also assist in furthering internal training programs.

Essential Job Functions

1. With assistance from the Chief Inspector and Quality Manager, lead company efforts in developing policy, processes, and procedures that meet requirements for certification for AS9110 and FAA/EASA Safety Management System. Once certified, maintain policies, processes, and procedures to ensure continued certification from certifying bodies.
2. With assistance from the Chief Inspector and Quality Manager, design and implement various training programs
3. With limited supervision, prepare various documents as required by Company policy, FAA/EASA regulations, and/or as required by QMS/SMS standards.
4. Locate and use appropriate technical data, follow verbal instructions and accept directions from supervisor when accomplishing assigned tasks.
5. Performs other related duties as assigned supervisor.

Job Specific Requirements

- **Attendance:** Regularly scheduled attendance required. Overnight and short notice travel may be required on occasion.
- **Physical:** Read small print; hear sounds associated with mechanical deficiencies; repetitive motion; work with moving parts and vibration; tolerate products, materials and fumes associated with component maintenance; tolerate standing, walking, bending, kneeling, stooping, crouching, crawling, climbing and sitting.
- **Environmental:** Shop environment Occasionally subject to elevated noise levels

Education and Experience

- Be at least 18 years of age.
- High School graduate or equivalent required.
- Be authorized to work in the United States
- Must have a valid driver's license and good driving record.
- Must understand, read, and write English.
- Possess organizational skills and maintain strong attention to detail.
- Experience with Quality Management System/Safety Management System initial certification process. Experience with AS9110 and/or FAA/EASA SMS preferred.
- Experience designing and implementing training programs, preferred
- FAA Airframe and/or Power plant license preferred
- FAA Part-145 Repair Station Experience preferred
- Possess polished and professional interpersonal skills with a positive attitude and a customer-oriented mindset
- Must have well-developed people skills and ability to work with a variety of personalities.
- Able to coordinate multiple priorities and meet deadlines.
- Able to handle interruptions and a fast-paced environment.
- Be self-motivated and able to motivate others.
- Must pass a DOT required pre-employment drug screen and willing to submit to and pass FAA and Company mandated random drug and alcohol tests.
- Ability to work in a safe professional manner adhering to all regulatory requirements including OSHA, EPA, state and federal regulations.

Company Description:

Turbine Standard is a large maintenance, repair and overhaul (MRO) facility specializing in the Honeywell TPE331, Pratt and Whitney PT6A, and General Electric CT7 turboprop engines as well as engine accessories and components. With two locations to serve our customers, we are problem solvers at heart, dedicated to continuously bringing creative solutions that exceed expectations of quality, turn-around time and pricing. Our team sets the standard for maintaining turbine engines.

As a full-time employee of Turbine Standard:

- You are eligible for **health, vision and dental** insurance policies. If selected, these are effective after a 30-day waiting period following your date of hire. Our current benefit enrollment guide will be provided during the onboarding process if you are selected for employment.
- You are eligible to participate in our **401(k) savings plan**, which would be effective the first entry date after three months of full-time regular employment. The Company match is 50% of the first 3% of the employee deferral. Your eligibility to participate in this benefit will be in accordance with the normal practices and guidelines of the Company. Our current 401K enrollment guide will be provided during the onboarding process if you are selected for employment.

- Plan for your medical needs with a **Health Savings Account** (employer and employee contributions).
- You will be eligible to start accruing **personal and vacation time** immediately when employed by Turbine Standard.

Note: Details of the benefits plans will be provided upon request during the interview or at the time of hire and the outlines above are just a general indication of the benefits offered.

Turbine Standard is An Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, political affiliation, marital status, pregnancy, sex, sexual orientation, gender identity, national origin, military/veteran status, age or any other federally protected status and will not be discriminated against on the basis of disability.

Disclaimer: The above statements are intended only to describe the general nature and level of work required of the referenced position; they are not intended to be an exhaustive list of all responsibilities, duties, and skills required of individuals in the position. Please be advised that the duties and expectations of this position may be subject to change.
