<b>Job ID</b>	1012	<b>Job Post Date</b>	08/21/2025
<b>Location</b>	Holland, Ohio	<b>Start Date</b>	ASAP

### **Job Description:**

As a Quality Assurance Technician you will be assisting the Chief Inspector and Quality Auditor in designing, implementing, and maintaining safety and quality standards that meet AS9110 and FAA/EASA Safety Management System requirements. This role will also assist in furthering internal training programs, implementation of processes, and quality audits.

### **Essential Job Functions**

- With assistance from the Chief Inspector and Quality Auditor, assist in company efforts in developing policy, processes, and procedures that meet requirements for certification for AS9110 and FAA/EASA Safety Management System. Once certified this role will assist with maintaining policies, processes, and procedures to ensure continued certification from certifying bodies.
- Assist with the development and implementation of various training programs
- With limited supervision, prepare various documents as required by Company policy, FAA/EASA regulations, and/or as required by QMS/SMS standards.
- Locate and use appropriate technical data, follow verbal instructions and accept directions from supervisor when accomplishing assigned tasks.
- Performs other related duties as assigned supervisor.

### **Job Specific Requirements**

- **Attendance:** Regularly scheduled attendance required. Overnight and short notice travel may be required on occasion.
- **Physical:** Read small print; hear sounds associated with mechanical deficiencies; repetitive motion; work with moving parts and vibration; tolerate products, materials and fumes associated with component maintenance; tolerate standing, walking, bending, kneeling, stooping, crouching, crawling, climbing and sitting.
- **Environmental:** Shop environment Occasionally subject to elevated noise levels

### **Education and Experience**

- Be at least 18 years of age.
- High School graduate or equivalent required.
- Be authorized to work in the United States
- Must have a valid driver's license and good driving record.
- Must understand, read, and write English.
- Possess organizational skills and maintain strong attention to detail.

- Experience with a Quality Management System/Safety Management Systems, including but not limited to: AS9100, AS9110, ISO9001, IATF16949
- Experience implementing and auditing processes/policies
- FAA Part-145 Repair Station Experience, preferred
- Possess polished and professional interpersonal skills with a positive attitude and a customer-oriented mindset
- Must have well-developed people skills and ability to work with a variety of personalities.
- Able to coordinate multiple priorities and meet deadlines.
- Able to handle interruptions and a fast-paced environment.
- Be self-motivated and able to motivate others.
- Must pass a DOT required pre-employment drug screen and willing to submit to and pass FAA and Company mandated random drug and alcohol tests.
- Ability to work in a safe professional manner adhering to all regulatory requirements including OSHA, EPA, state and federal regulations.

#### **Company Description:**

Turbine Standard is a large maintenance, repair and overhaul (MRO) facility specializing in the Honeywell TPE331, Pratt and Whitney PT6A, and General Electric CT7 turboprop engines as well as engine accessories and components. With two locations to serve our customers, we are problem solvers at heart, dedicated to continuously bringing creative solutions that exceed expectations of quality, turn-around time and pricing. Our team sets the standard for maintaining turbine engines.
